

## OHIO STATE SUED

For over 6 years, OSU has waged war against its own Alumni. An independent investigation found that OSU allowed hundreds of students/athletes to be raped and sexually assaulted by an OSU doctor. OSU knew about it, covered it up and even shredded records. Despite the university's public admissions and apologies, OSU continues to fight survivors in federal court.

## OHIO STATE OF TODAY

The OSU of today lacks a moral compass as it continues to traumatize survivors. OSU has silenced survivors from speaking in meetings, denied sex crimes in court, and continues to employ people involved in the sexual abuse coverup. There is no doubt that the actions of today's OSU are similar to previous administrations. Current and future students are in jeopardy of OSU again turning a blind eye to sexual abuse and trauma. Simply put, OSU cares more about its brand than its students and Alumni.

Yesterday it was us. Tomorrow it may be you.
